PROFILE

Dedicated Full Stack Developer with 6 months of immersive training at SEF Academy, specializing in Node.js and React. Proven proficiency in HTML, CSS, Tailwind CSS, React, SASS, Node, Mongoose, and Express. Applied knowledge through hands-on experience at Nixpend Company, showcasing practical project expertise. Ready to bring a fresh perspective and drive impactful results in dynamic web development environments.

EMPLOYMENT HISTORY

Node JS developer at Nixpend - Sequential Technologies, Amman

February 2023 — May 2023

Embarking on my journey as a Full Stack JavaScript Web Developer, eager to learn and contribute in a professional team. Proficient in Node, Express, Mongoose, and diving into Angular. Ready to bring dedication and a fresh perspective to enhance web development projects

EDUCATION

Full-stack web developer(Node JS || React), Software Future Academy, Cairo

August 2023 — January 2024

Accelerated my career through an intensive Full Stack Web Development bootcamp at Software Future Academy. Mastered Node.js and React, gaining hands-on experience in building dynamic, modern applications. Positioned to deliver impactful contributions to innovative projects with a solid foundation in cutting-edge technologies.

Bachelor's degree of Biomedical Engineering, The Hashemite University, Zarqa

February 2018 — May 2023

Graduate with High honors (3.5/4)

November 2022 — December 2022

Node.js, Express, MongoDB & More: The Complete Bootcamp 2024, Jonas Schmedtmann Udemy

October 2022 — May 2023

PROJECTS

Full Stack E-Commerce Using Node | React

This e-commerce project, built with React, Node.js, Express, and MongoDB, offers a dynamic online shopping experience. It includes features such as secure payment gateways, comprehensive CRUD operations for categories, advanced error handling, and robust user authentication and authorization. Additional functionalities cover product reviews, wishlists, and user addresses, along with coupon management and a sophisticated shopping cart. The project ensures security measures and ongoing enhancements, and it's deployable on platforms like Heroku for scalability and accessibility.
